
2nd Annual Meeting and Midterm Meeting, Paris, France

Associated to the 2nd MEMO² School

18 – 22 February 2019

The Midterm Meeting (according to art. 19.1 of the GA) assesses the fulfillment of all project aspects as described in the Grant Agreement (science, training, management, networking, ect.).

The Midterm Meeting is MANDATORY for the whole consortium, which includes all beneficiaries AND the partner organisations, and the ESRs.

Our EU Project Officer and one external expert (Prof. Milena Horvat) will evaluate the project based on the submitted deliverables and reports, and discuss with the ESRs about their experiences made within the project.

A draft Periodic Report (Midterm Report) has been prepared and submitted to the EU.

Aim of the meetings:

Thursday: On Thursday we will update the CDPs (D4.2) and internally review the project. The WP leader will update the consortium about the achievements of their work packages, we will evaluate the progress and prepare the next steps within MEMO².

Friday: On Friday the project and its progress will be presented towards the EC and the external reviewer. The WP leader will give an overview over their WP, incl. aim, objectives and results of the first reporting period. The ESRs will prepare a poster about their individual projects and discuss the outcome with the consortium and the EC representatives. During the discussion between the ESRs and the EC representatives, the PIs and partners will continue the implementation of the next reporting period.
